Performance By...

G88F37 is an excellent choice across all soil types. A semi-flex ear allows the grower to have population flexibility. G88F37 excels on rotated acres.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
