

LS-0638N RR2X

- Most defensive RR2X in Mid-Group 0
- Excellent white mold tolerance
- Strong natural phytophthora tolerance
- Exceptional stress tolerance for good soil type adaptability
- Defensive characteristics makes this variety almost unstoppable!
- Maturity: 0.6

DISEASE RATINGS

White Mold	EX
PRR FT	EX
PRR GENE	-
Iron Chlorosis (IDC)	EX
Brown Stem Rot	EX
SCN Resistance	EX
SCN Marker	PI88.788
SDS Tolerance	NA

AGRONOMIC CHARACTERISTICS

Standability	EX
Emergence	EX
Stress Tolerance	EX
Plant Type	Medium-Bushy
Plant Height	Medium
Shatter Resistance	VG

PLACEMENT GUIDE

Ideal Soils	VG
Variable Soils	VG
Tough Soils	EX
SCN Areas	VG
White Mold Areas	VG
Wide Rows	VG
Narrow Rows < 15"	VG
No-Till - Reduced Till	EX

Rating Key: EX = Excellent | VG = Very Good | G = Good | S = Susceptible | R = Resistant | NA = Not Available | FT = Field Tolerance

Diseases: PRR = Phytophthora Root Rot | IDC = Iron Chlorosis | BSR = Brown Stem Rot | SCN = Soybean Cyst Nematode | SDS = Sudden Death Syndrome

MY NOTES:
